MAVEX 

MAVEX

Mavex is a Swiss company that manufactures and distributes worldwide natural cosmetics based on medicinal herbs and alpine plants.

Mavex's cosmetics do not contain parabens, formaldehyde, mineral oil or paraffin. Not tested on animals, they are produced in full respect of environment and nature according to high level quality standards under stringent quality controls.

They feature precious herbal active ingredients and next-generation phytocomplex, result of the Swiss most advanced research and cutting-edge production technologies.

Their particularly pure formula and the absence of chemical ingredients make them particularly useful and compatible with all skin types.

Their velvety textures meld with the skin, penetrating deeply without greasing, while their natural perfumes always provide deep sensual emotions.

Always looking for innovative products geared to the highest customer satisfaction, **Mavex** is the undisputed leader in the field of foot and hand care with revolutionary treatments like Calluspeeling and SPA courses of refined conception.

Mavex products are nowadays used by beauty centres and SPA in the best hotels in the world, a clear sign of the undisputed success of a strong and innovative brand that has managed to stand out above all for quality and innovation.

Mavex products are sold, directly and thru distributors, in more than 50 countries in the world.

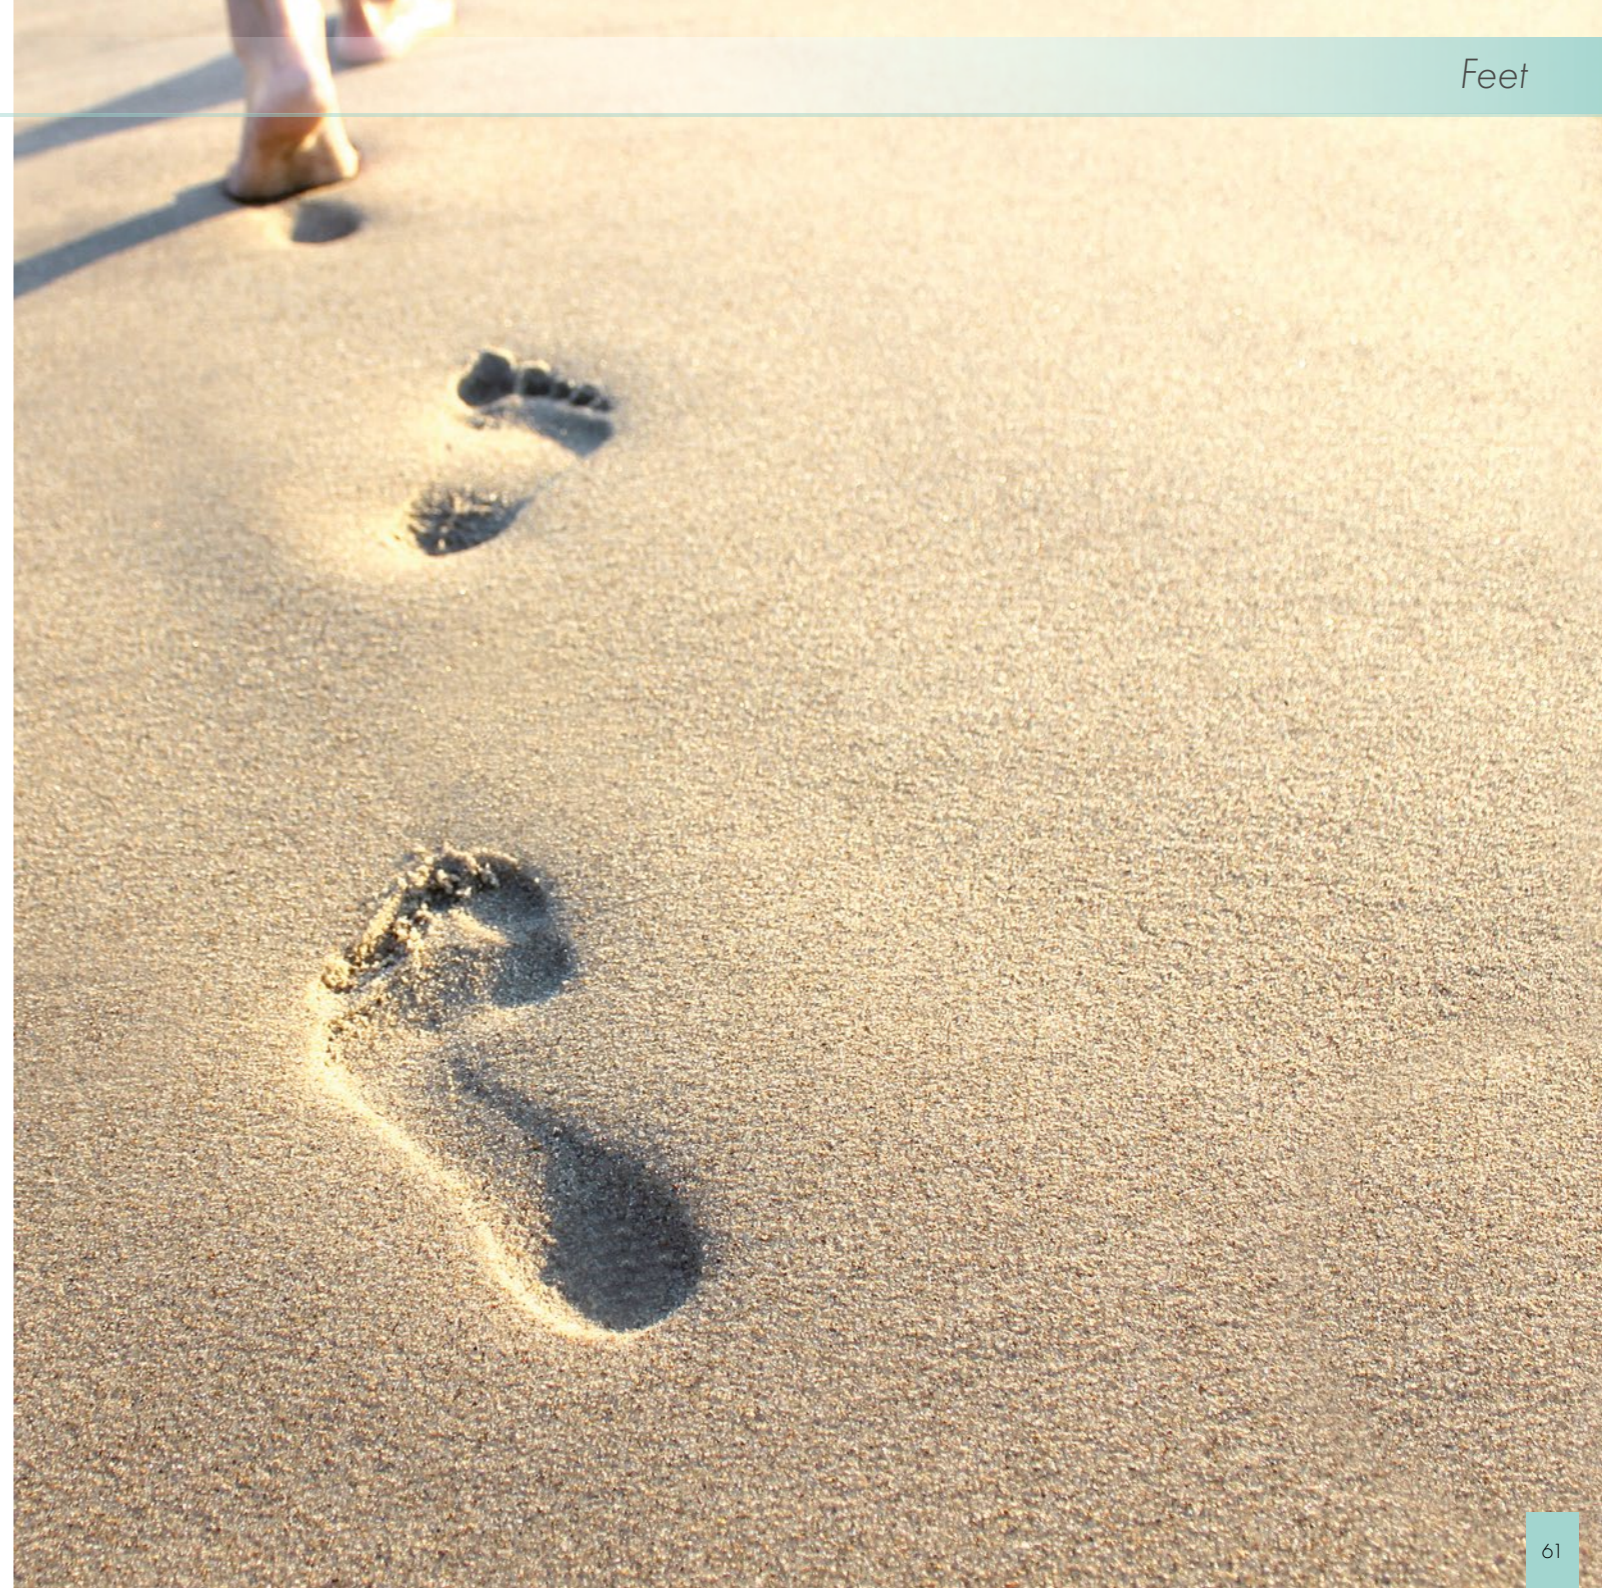

MAVEX 

PROFESSIONAL CARE FOR YOUR FEET

MAVEX's long experience in the sector of foot care, together with important collaboration with universities and renowned research centres, have enabled the company to create specific products for foot care that are highly efficient, acknowledged and appreciated all over the world for their high quality.

All MAVEX products not contain parabens, formaldehyde or paraffin. They are not tested on animals and are manufactured in full respect of the environment and of nature, in compliance with strict quality standards.

EXTREMELY DRY AND DEHYDRATED SKIN, CHAPPED HEALS, FISSURES, EXCESSIVE TENDENCY TO FORM CALLUSES

Foot Daily Care Cream

100 ml

Created to continue the Calluspeeling treatment at home, this cream is perfect for the everyday care of your feet, thanks to its complex of Vegetal extracts and Urea, which has an intense nourishing and moisturising action.

It has an effective anti-fatigue action and helps prevent the formation of bacteria, keeping your feet always healthy and beautiful.

When used regularly, it prevents the formation of calluses and fissures, and helps maintain the skin of your feet soft and elastic.

Penetrates easily and is not greasy. For better results, avoid using pumice or rasps at home.

ACTIVE INGREDIENTS

Vegetal Lipids and Softeners

Retain water and release it into the skin, re-establishing the proper functioning of the epidermic layer. Nourish the skin, making it soft and elastic.

Vitamin E

Important anti-oxidant, anti-ageing action.

Urea

Natural moisturising factor that improves the skin's ability to bind to water. Ensures prolonged hydration and reduces skin tension.

Essential Eucalyptus Oil

Toning action, has particular stimulating properties on the circulatory system.

Essential Lavender Oil

Bacteriostatic and refreshing.

NEGLECTED, DRY AND DEHYDRATED SKIN, TIRED FEET WITH POOR CIRCULATION

Foot Intensive Care Cream

100 ml

All the extraordinary strength of nature and the mountains contained in an infinitely delicate treatment that does more than treat and protect, but also gives you a profound sensorial emotion.

Intense and specific protective action on blood vessels, anti-fatigue and bacteriostatic. Helps stimulate circulation and reactivate cellular metabolism. A veritable cure-all for the feet and ankles and for tired, swollen legs.

Your skin will regain its natural elasticity and softness, giving you a wonderful sensation of freshness, lightness and profound well-being.

With an intense and aromatic fragrance of Alpine Mallow, this cream is both a concentrate of pure well-being and an extraordinary beauty treatment for your feet. In a single gesture, it softens and perfumes, leaving your skin perfectly smooth and luminous.

Silky, involving texture that penetrates perfectly and is not greasy. For better results, do not use pumice or rasps at home.

ACTIVE INGREDIENTS

Gentian

Has intense anti-inflammatory and antiseptic properties and a remarkable soothing action on sensitive and irritated skins. Perfumes the skin and prevents excessive perspiration.

Blueberry

Strengthens the connective tissue and improves the resistance, elasticity and tone of the blood vessels. Reduces legs' tendency to swell and soothes the feeling of heaviness, efficiently improving blood circulation.

Spruce Fir

Spruce Fir essential Oil has balsamic resins with significant anti-inflammatory, antiseptic and deodorant properties. Gives an immediate sensation of freshness on the skin, attenuating fatigue and muscle tension. It is particularly indicated to treat chapped skin, fissures on the heels and swollen feet, as the phytoncides contained in its needles have extraordinary antibacterial properties that fight unpleasant smells and excessive perspiration.

With its purifying and refreshing effect, it stimulates circulation and reactivates cellular metabolism, leaving your skin soft and revitalised.

SPA Treatment
Alpines Herbs

Mavex developed the first foot beauty and wellness line:

SPA Treatment Alpines Herbs

All the extraordinary power of nature and mountains enclosed in an infinitely delicate treatment, capable not only to heal and protect, but also of giving a deep sense of balance to body and mind.

A rich concentrate of precious natural active ingredients:

- Medicinal herbs and alpine plants.
- Salt crystals.

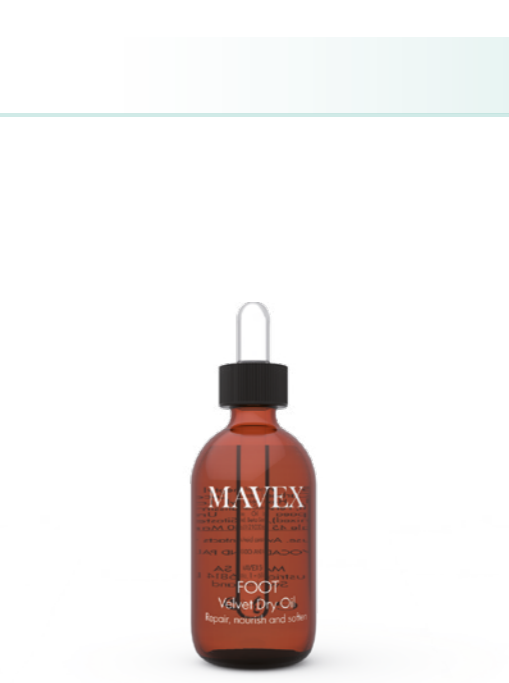

The strength and the effects of the alpine nature of the Mavex Spa Treatment can be immediately perceived:

- Helps to improve microcirculation and skin oxygenation.
- Regenerates the skin barrier.
- Moisturizes in depth with a long-lasting effect.
- Nourishes the skin with precious natural substances.
- Refreshes, deodorizes and regulates perspiration.
- Donates a marvelous sensation of lightness and well-being.

A new wellness ritual, an extraordinary sensorial journey into the colors and the reflexes of the purest and uncontaminated nature while body and mind are enveloped by extraordinary and suggestive balsamic fragrances.

*Welcome into
the Alpine Nature...*

Without parabens, formaldehyde,
mineral oil or paraffin.

PHASE 1: FOOT BATH
Aromatic Alpine Foot Bath 500 g

Ten minutes of hot water foot bath with two spoons of these precious Salt Crystals are enough to donate a wonderful relaxing and invigorating effect to the feet. A mix of plants dried extracts like Milfoil, Spruce Gems, Juniper, Masterwort and Lemon Balm. A real bath in the purest nature, with a powerful draining effect that reduces sense of swelling and soreness, stimulates the circulation and gives an immediate feeling of wellbeing and relaxation. A foot bath with Salt Crystals is a true moment of intense wellbeing, to rediscover the serenity and calm and remove stress and toxins. After this wonderful bath, feet and legs find a new lightness and strength.

Aromatic Alpine Nectar 50 ml

A thorough mix of precious and exclusive essential oils extracted from aromatic plants of the Alps. Mint, Eucalyptus, Birch, Cypress and Mountain Pine compose this incredible Nectar of the Alps, that can not only give intense and strong sensorial emotions, but also incredibly increase the efficiency of the footbath or the aromatic bath. The intense and penetrating aromatic essence of the alpine plants is released into the water, that slowly takes the colors and the reflexes of the purest and uncontaminated nature while body and mind are enveloped by extraordinary and suggestive balsamic fragrances. While immersing in this extraordinary Alpine Nectar you are immediately enveloped by a warm and balsamic fragrance that stimulates the skin and the senses. The sensuality of this nectar wakes all the body enveloping it with a penetrating fragrance in an unique sensorial experience.

PHASE 2: EXFOLIATION
Silky Peeling 100 ml

Specifically studied for foot skin, this innovative nourishing and soothing peeling alleviates and polishes immediately even the driest skins. Salt Crystals have a highly exfoliating power that reduces the thickenings and makes the skin splendid again, with a surprisingly velvet effect. The Gentian prevents excessive transpiration, calms, alleviates and deodorizes. The foot finds again all its purity, the skin appears oxygenated and extremely smooth. A real purification ritual that gives a deep sensation of well-being.

PHASE 3: MASK
Gel Mask 100 ml

An innovative hydrating gel specific for the foot with the power and the efficacy of the natural ingredients of the Alps in it, nourishing, soothing and refreshing. It has a delicious fragrance of Alpine Mallow and contains precious natural active principles that give the feet a new softness, invigorating and hydrating. Aloe Vera soothes, calms and reduces the inflammations. It facilitates the production of collagen, improves the skin's elasticity and flexibility, repairing and effectively nourishing dry feet. The Gentian adds a particular soothing effect for sensitive and irritated skins, deodorizes and prevents excessive transpiration. A particular natural vegetal antibacterial contained in the Buds of Spruce Fir helps contrasting the bad smells and to regulate the excessive transpiration. The precious Essential Oil of the Fir relieves the stress and the tiredness and gives a wonderful feeling of relaxation.

PHASE 4: MASSAGE
Velvet Dry Oil 50 ml

A foot treatment with a high nourishing and protective power that combines harmoniously the properties of Olive and Avocado Oil. A mix of vegetal oils, very rich in vitamins, that protect the skin and facilitate efficiently elasticity, hydration and smoothness. Specially the Olive Oil, due to its affinity to the cutaneous sebum, has soothing and sebum restituting properties that can stimulate the repairing processes of derma and epidermis. A massage with this oil with its vitamins and the delicate fragrance of Alpine Mallow is a real care-taking treatment and a well-being for dry and cracked feet. It is easily absorbed, doesn't feel greasy and gives an immediate sensation of relax. The skin, nourished by vitamins recovers a new extraordinary light and a delicate silky smoothness.

PHASE 5: MASSAGE
Intensive Care Cream 100 ml

Effective as a real beauty treatment it nourishes, soothes and deodorizes in one gesture. A cream formulated with a particular synergic complex of vegetal extracts of alpine herbs and plants such as Gentian, Blueberry, Spruce Fir. With its intense and aromatic fragrance of Alpine Mallow this cream is at the same time a real concentrate of pure well-being and an extraordinary foot beauty treatment. It has an intense specific protective action on the blood-vessels, it is relaxing and antibacterial. It helps stimulating the circulation and re-activating the cellular metabolism. The skin recovers its natural elasticity and softness getting a marvelous feeling of freshness, lightness and deep well-being.

Salt Crystals

Dissolved in water they help to reduce the sensation of swollenness and soreness due to their extraordinary draining effect. They refresh, invigorate and disinfect the foot, granting an immediate relax and well-being.

Gentian

Its roots contain bitter glycosides, alkaloids, yellow pigments, pectine and essential oils. The Gentian has great anti-inflammatory and antiseptic properties and an important soothing action for sensitive and irritated skin, the deodorizing action prevents an excessive transpiration.

Blueberry

Blueberries contain high percentages of organic acids, like citric acid that is a powerful protector of the cells and the anthocyanic glucosides that, due to their extraordinary capacity to neutralize the free radicals, strengthen the connective tissue and improve the resistance, the elasticity and the tone of the blood vessels. It reduces the disposition to swellings and the feeling of heaviness of the foot improving efficiently the blood circulation.

Juniper Berries

Rich in very precious essential oils, the berries, the leaves and the wood of Juniper have always been used in all the Alps by the people of the mountains for their virtuous benefic properties and for their capacities to stimulate efficiently the superficial circulation.

Spruce Fir

Its precious active principles are extracted from the buds and from the young branches of the trees through vapor distillation. The essential Oil of Spruce Fir, due to the balsamic effect of its resins, has important anti-inflammatory, antiseptic and deodorizing properties. On the skin it gives an immediate sensation of freshness reducing the fatigue and the muscular tensions. It is particularly indicated for the cracks in the skin, in the heels and the swelling of the foot because, due to the phytoncides contained in its needles, it has extraordinary antibacterial properties which can contrast the bed smells and regulate the excessive transpiration. It has a purifying and refreshing effect, it stimulates the circulation and reactivates the cellular metabolism leaving the skin smooth and revitalized.

Mountain Pine

It is a powerful antibacterial, it stimulates the blood circulation and it facilitates the cell metabolism. Due to its intense fragrance, it has a very invigorating and relaxing effect. It is one of the most used plants by farmers in the Alps.

Yarrow

It's a perennial herbaceous plant, with thin roots, it grows above 2000 meters and it has very perfumed flowers. The active substances in the yarrow are the Essential Oil and the Achillein, bitter substances with invigorating, aromatic and balsamic properties.

Lemon Balm

The leaves of Lemon Balm contain Rosmarinic Acid, Polyphenolic Acids such as Caffeic Acid and Chlorogenic Acid, Flavonoids and an Essential Oil. It is known for its medicinal properties and is very appreciated as an aromatic herb. Due to the strong anti-inflammatory power of the Rosmarinic Acid and of the Beta-Caryophyllene, Lemon Balm has outstanding decongestant and alleviating properties for the skin.

Masterwort

Since ancient times the farmers of the Alps used its flowers, roots and fresh leaves to treat wounds, injuries, contusions. During the summers on the alps of the Swiss mountains infusions were prepared to immerge the swollen feet and get relief. The flowers and the leaves were meanwhile burnt in the stables as disinfectant.

Aloe Vera

From its leaves is extracted a gel that has at least 160 natural active ingredients, with anti-inflammatory, alleviating, calming, hydrating, anesthetic, refreshing, cicatrizing, antibiotic properties. Locally applied it penetrates all the layers of the derma, attacking the enzymes that cause inflammation and reducing it. It facilitates the production of a collagen and improves the skin's elasticity and flexibility. It is ideal in case of dry, cracked skin, skin's irritations and burns, sunburns, itch, abrasions and dermatitis, ulcerative damages, wounds.

Mint, Eucalyptus, Birch, Cypress, Essential Olive, Avocado and Palm Oils
